

5th Grade General Science

Dear Parents and Students,

I would like to take this opportunity to welcome your child to The Bridges Academy's 5th grade general science class. I am extremely honored to be taking part in your child's education and I am looking forward to a very successful year.

My goal is to generate a strong interest in science by exposing them to a multitude of topics and connect it to their everyday experiences. I am committed to their success and only ask that they work hard in return. Together we will be able to achieve a fun, and rewarding experience.

Please contact me anytime at corinne.kutukcu@bridgesli.org or by calling the main office.

Kindly,

Mrs. Kutukcu

Grading Policy: Points System

- Tests and Project 25 points each
- Quizzes 10 points each
- Homework 5 points per week
- Classwork and Weekly Preparedness 5 points per week

Homework: A reasonable amount of homework will be given weekly. It is due at the beginning of class the next day. A missing assignment will have 1 point deducted each day it is late and 1 point deducted for it being incomplete. Assignments are not accepted after two days unless it is excused.

Preparedness: It is important that everyone comes prepared to class each day. Students should have their books, assignments and something to write with. 5 points per week will be earned; deductions will be given daily if a student is unprepared.

Absences: It is every student's responsibility to make up missed work. In the event of an exam or quiz, please have the student see me to reschedule the assessment.

Behavior: It is important that students express self control and participate in a manner conducive to a healthy learning environment. Disruptive behavior will result in points being deducted from the daily classroom participation grade, or demerits which can result in detention.

Extra Help: Available during regularly scheduled lab time (Tuesday), lunch on Mondays, Wednesdays and Fridays and at mutually convenient times.

We are looking forward to a very vibrant, interactive learning experience this year!
